# OUR SERVICE PORTFOLIO AT A GLANCE

## INSTALLATION & COMMISSIONING

- Installing new products in line
- Supporting commissioning activities

## VALVE AUTOMATION

- Providing valve-actuator packages
- Assembling, testing and delivering
- Supporting brand-independent sourcing

## SERVICE & APPLICATIONS TRAINING

- Servicing and operating products correctly
- Providing technician certification for products
- Offering application and process insights

## PARTS & REPLACEMENTS MANAGEMENT

- Purchasing support and supply for own and other brands
- Planning demand and replenishment
- Managing inventory - for new and swap stock

## INSPECTIONS, TESTING & CERTIFICATION

- Supporting in-situ, on-site and in workshop - on - and offshore
- Inspecting and testing to suit application needs

- Calibrating products e.g. actuators and instruments
- Certifying products according to industry standards

## MAINTENANCE AND REPAIR

- Standard maintenance and repair services
- Supporting in-situ, on-site and in workshop - on - and offshore
- Offering damage analysis and resolution support
- Providing embedded service crews at your site

## TURNAROUNDS, REVISIONS, & SHUTDOWNS

- Comprehensive planning & preparation of work – labor, parts and tooling
- On-site execution and workshop backup
- Reporting and documentation

## PRODUCT UPGRADES & MODIFICATIONS

- Modifying products to customer specifications
- Upgrading to advanced product specifications

## END OF LIFE SUPPORT

- Refurbishing products to an 'as new' state
- Parts manufacturing on obsolete product lines
- Upgrades & modifications of damaged or low performing products to application needs

## ASSET INTEGRITY MANAGEMENT

- Management of full actuator & valve fleets
- Predictive and preventive maintenance approaches, including risk-based maintenance management
- Embedded customer engineers
- Online customer access to reports and documentation
